

Attention Utah Wing!

Because of our great success at the 2008 Wendover Airshow, the City of Wendover, UT has asked Utah Wing to begin work on a new Composite Squadron to meet at the historic Wendover Airport.

LtCol Niedfeldt and Lt Mettmann have had some preliminary meetings in Wendover to get the new prospective members set up with the paperwork and knowledge base they need to start.

This new Composite Squadron will be part of the Utah Central Group. New members that are Nevada residents will also be permitted to operate within Utah Wing as members of this unit. 1Lt Jason Mettmann has been named the Unit Commander.

There is strong base of prospective Cadets, Pilots, Firemen, and Teachers that are very excited to get involved.

Lt Mettmann is looking for both Cadets and Senior Members within the Wing to help train the new Squadron Staff. If you are interested in training with this new Unit, please email Lt Mettmann at jm.mettmann@gmail.com

Training assistance will be needed in: Admin, Flight Operations, Cadet Programs etc.

Cadet Commander Applications must be in no later than Wednesday, January 28th at 17:00. Attach a CAP Resume, with a cover letter. The staff will travel to Wendover via CAP Van or CAP Aircraft for each meeting. Unit meetings will likely be held on Tuesday Evenings. Meetings will be held every two weeks until the Unit Charter is presented in early March.

Utah Wing is very excited to have this addition to our team. If you have any questions concerning staff applications, or operations within this unit, contact 1Lt Jason Mettmann at 801-787-7376, or jm.mettmann@gmail.com

Best Regards,

Robert M. Bost, Col, CAP
Utah Wing Commander
